WSA161

Li-ion pedestrian stacker 1.6T

- Fast lifting and lowering speeds to maximize efficiency
 - Proportional lifting system for utmost precision
 - Compact design offering maneuverability
 - Lithium technology with integrated charger
- Heavy duty stacker designed around Li-Ion battery
 - High efficiency thanks to the fast lifting and lowering fork speed
 - Great stacking precision with the proportional lifting and lowering fork control
 - Compact design allow to work in narrow aisles
 - Powerful AC vertical traction motor
 - Turtle button to operate in narrow spaces
 - Fast charging with integrated charger

FEATURE

■ Fast lifting and lowering speeds to maximize efficiency

Compared to the ES-WA series, the WSA161 doubles up the lifting and lowering speeds. This contributes to fast stacking and maximized turnover efficiency in warehouses.

■ Proportional lifting system for utmost precision

The WSA161 comes with the proportional lifting system as standard and enables the operator to stack and retrieve pallets more precisely and gently in multi-level racking.

■ Compact design offering maneuverability

The WSA161 demonstrates a compact design with 85mm reduction in mast thickness than the ES-WA series and naturally brings a smaller turning radius 1507mm. This makes it particularly suitable for moving loads in narrow spaces.

Turning radius
1507mm

■ Lithium technology with integrated charger

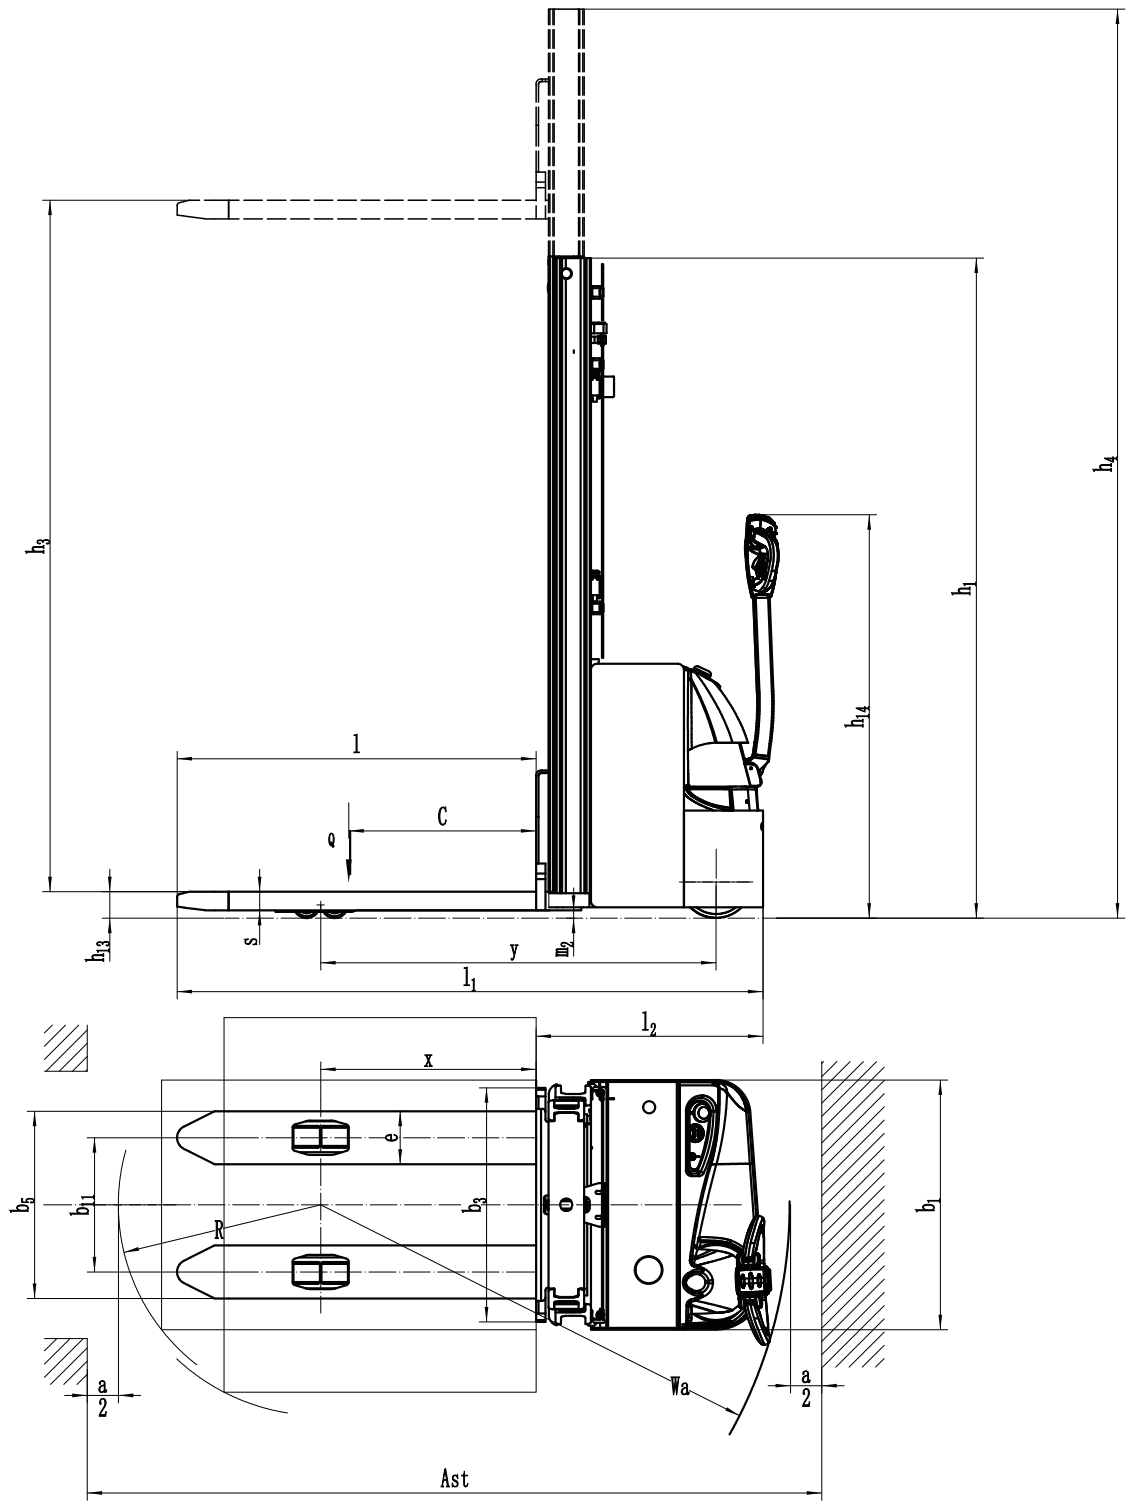

The WSA161 is fully designed around the advantages of lithium technology, with 24V/100Ah Li-ion battery and an integrated charger, which allows for flexible and rapid charging and zero maintenance. 24V/205Ah Li-ion battery is optionally available for long operating period.
